

Tension-Free™ Desktop Endurance Testing System

Tension-Free™ Folding Clamshell -type

DMLHP-CS

*Clamshell type test machine can be tested by tiny banding radius.

Not place the tensile stress*1 on the sample.

*1...Tension-Free™

*Can be inspected without remove the sample by sample setting plate of cartridge type. In addition, easy to restart after evaluation

Specifications	
Model Number	DMLHP-CS
Sample	Sheet or Linear samples
Sample size	130 mm * 126 mm (7") maximum
Sample thickness	1 mm maximum
Sample width	130 mm maximum
Sample length	(2R)+(Clamping space)mm minimum (Be changed follow to condition)
Bending angle	0-180°
Bending radius	0.5~5.0 mm
Bending force	4.0 N·m maximum
Bending speed	10-30 rpm
Installation Temp range	+5 to +40°
Installation Humidity	15-85 %RH (no condensation)
Weight	24.5 kg (54 lb)
Dimensions (mm)	790 mm * 457 mm * 289 mm (WDH)
Dimensions (inches)	31.10" * 18.00" * 11.38"
